

D Shawcross Ltd has been providing quality roofing services since 1978. Our name has become associated with excellent work and we are recognised as one of the leading roofing contractors and roofing repair specialists in the north of England.

We are experienced in all types of roofing work from large corporate contracts with local authorities, Government agencies, schools & colleges, NHS Trusts and private companies to simple domestic roofing repairs. We have a continuous training programme for all our staff covering everything from Health and Safety to the very latest roofing techniques. We can also help you with the design of your roof, offering various specifications from our technical staff.

We can help you with your roofing needs – whatever the size, whatever the job. Be it a torch on membrane or single ply or even a liquid plastic coating, all hot and cold applied roofing solutions can be tailored to suit your requirements and budget and keep your project within the bounds of building regulations.

When you choose D Shawcross Ltd you can be sure of the very highest quality of work combined with competitive pricing and friendly, professional, qualified staff.

Call us today and we will be delighted to help in any way we can

Whatever your roofing problem may be, we can provide a roofing solution!

About us

As a family run business with over thirty years' experience in the roofing trade, D Shawcross Ltd practises time-honoured roofing techniques which have been passed down through the generations to make sure that what we do meets your ultimate objectives, whether it be curing water ingress or improving building aesthetics.

We pride ourselves on supplying only the best roofing solutions no matter how big or small your requirements may be. Roofing solutions can be tailored to suit your requirements and budget and keep your project within the bounds of all current building regulations.

Under the sole control of our managing director Dennis Shawcross we have built up a prestigious list of valued clients, which include local authorities, Ministry of Defence and NHS primary care trusts. The bulk of our work comes from working on sensitive areas such as schools and education establishments and NHS Trusts, so you can rest assured that all our operatives are Police vetted to give complete peace of mind.

Our fully trained staff are available during office hours to offer simple, independent roofing advice, or perhaps a personal no-obligation roofing consultation can be arranged at your convenience to discuss any enquiries that may be forthcoming.

We also house an extensive range of pitched roof solutions to help us blend properties into their natural surroundings. Popular choices include natural slate, concrete or clay tile and man made resinous slate / tiles which can significantly improve the exterior fabric of the structure thus make it more pleasing to the eye. All ventilation and insulation requirements can be catered for dependant on required U values. Where areas are prone to vandalism we can specify an assortment of vandal-proof tile effect steel sheets which can keep out the most eager individual.

D. Shawcross Ltd

Built-up Roofing Specialist - Contractors to NHS and Local Governing Bodies

The quality of our roofing work is unsurpassed, which is why we have developed a strong relationship with our affiliated partners such as Anderson Waterproofing, Icopal Waterproofing, Bauder Waterproofing, Kemperol Liquid Plastics, Imper Waterproofing, Langley waterproofing, Marley Waterproofing, Sureweld Single Ply, Ruberoid and Kingspan Insulation, which all can provide 10-20 year insurance backed warranties.

Finally we have an impeccable health and safety record which allows us to be members of Constructionline, National Federation of Roofing Contractors, CHAS and considerate construction schemes. Being main roofing contractors ourselves on numerous projects has allowed us to amass a large amount of site safety and crowd control equipment, which can be readily available at a moments notice. Therefore we feel we meet all the criteria that you could be looking for and we hope to be of service to you.
